## **From The Desk Of The Publisher...**

Thank you for picking up a copy of the Morongo Basin/Joshua Tree Gateway Communities' first edition of the iScan book Directory which is the first directory ever to only promote businesses that have Quick Response (QR) codes. The mobile market has grown from 38 million smartphone users in 2010 to 141 million as of May, 2013. According to Mobile Marketing news, 223 million consumers purchased new smartphones in the last 90 days world wide and 600,000 new consumers are purchasing a smartphone every week in the US. That is a big market!

Our books are aimed at connecting local businesses to those 141 million mobile consumers. The book's concept is the brainchild of my business partner, John Codgen, owner of Hospitality Plus publishing company, and resident of the Morongo basin for over 30 years. When John first came to me with this concept, I had never scanned a QR code before. However, having taught technology classes for the last 13 years and also having been a web designer since 1997, I know a breaking trend in technology when I see one. After doing extensive research, I knew it was time for a directory for QR code promoters and users. So, our concept was born.

We actually offer three opportunities for local businesses; one is to advertise in the local iScan books that are distributed through the chambers we join as well as selected hospitality and retail outlets throughout the coverage area; two is to advertise on [iscanbook.mobi](http://iscanbook.mobi), our mobile site which all advertisers in our book are placed on for free! Of course, a business can still advertise on our mobile site whether they're in the book or not, for a small monthly fee. Each book can be downloaded from our site in a PDF copy, so, we deliver our books 24/7, 365 days a year online. We also offer mobile site solutions for our advertisers as well.

We can build our advertisers an iPhone app, Android App or a mobile web site using HTML 5 for Blackberry and Windows phone users. We then publish the app in iTunes and/or Android Apps in Google Play. We also host and maintenance the apps for our clients. For more information on any of our services please contact us at 760-366-7911.

Ron Taber  
General Manager, Co-Owner

## How To Use The iScan Book Directory

QR codes can be scanned by any smartphone or device with a camera as long as you also download a QR code reading app. We recommend the top three apps; ScanLife, RedLaser and Microsoft Tag. ScanLife has over 7 million scans processed per month and can scan UPC, QR codes or Microsoft Tag NFC objects or images. You can download these apps from iTunes, or Android APPS on Google Play. Once downloaded, all you have to do is open the app, touch the scan button and the app does the rest. You are taken immediately to the web site or offer that the QR code points too! No more trying to type in long URLs in your smartphone, just scan it!

 The Iconic "Billy The Kid" by John W. Hilton

**History Of Billy The Kid**

John W. Hilton, a High Desert Impressionist Artist painted this painting using two authentic guns of Billy - The 44 Caliber Carbine pictured was presented to Col. Eugene Van Patten, a United States Deputy Marshal who jailed the Kid in 1881 at the Dona Ana County Jail in Mesilla, New Mexico.

The 45 Colt Revolver was taken from Billy The Kid by Pat Garrett after he shot him.
